Profile:

Experienced software engineer with 6+ years of expertise in full-stack development, specializing in building scalable, high-performance web applications. Proficient in JavaScript, Python, and cloud technologies. Strong problem-solving skills and a passion for writing clean, maintainable code. Seeking to leverage my technical skills at a leading tech company.

Work Experience:

Senior Software Engineer, Tech Solutions Inc.

June 2020 - Present

- Led development of an internal tool for automating server monitoring, reducing manual intervention by 40%.
- Collaborated with cross-functional teams to deliver a client-facing web application using React and Node.js.
- Mentored junior engineers and conducted code reviews to ensure high standards of code quality.

Software Engineer, WebDev Studios

August 2016 - May 2020

- Developed and maintained web applications in Django and Flask, ensuring seamless integration with front-end components.
- Optimized application performance, resulting in a 25% reduction in page load times.
- Worked closely with designers and stakeholders to implement user-friendly interfaces.

Education:

BSc in Computer Science, University of Birmingham

Graduated: 2016

Skills:

- Programming: JavaScript, Python, HTML/CSS, React, Node.js, Django, Flask
- Tools: Git, Docker, Jenkins
- Cloud: AWS, Google Cloud, Azure
- Other: Agile methodologies, Test-driven development, REST APIs
